White:-Just as soon as cold weather sets in, my hands roughen and crack. I buy the best and most expensive soap my druggist has, but the result is just the same; sore hands every winter.

Brown:-I had just the same experience, until I read one of the Ivory Soap advertisements, about too much alkali in some soaps, which draws the natural oil from the skin and leaves it dry and liable to crack, so I sent out and got a cake of Ivory Soap, and found it all the advertisement promised; my hands are soft and smooth the

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'lvory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Ladies Have Tried it.

A Lady Correspondent Gives Some
Sensible Advice to Farmers.

BENNETTSTOWN, KY., March 4—
I have been thinking a good deal of the disjointed condition of affairs in the Clarksville tobacen district; trying to find some practical solution of the difficulty. I do not see it in "abstention" as some represent it.

I am satisfied that it is hereditary in my family. My father died of it, as ister of my mother died of it, and my own sister died of it. My feelings may be amagined, then, when, the horible disease made its appearance on my side. It was a malignant Cantille of the disjointed condition of affairs in the Clarksville tobacen district; trying in figure in the disjointed condition of affairs in the Clarksville tobacen district; trying in figure in the disjointed condition of affairs in the Clarksville tobacen district; trying in figure in the disjointed condition of affairs in the Clarksville tobacen district; trying in figure in the disjointed condition of affairs in the Clarksville tobacen district; trying in such as way that could not but out. Numerous remedies were used for it, but the Cancer grew in the district in the clarksville tobacen district. stention" as some represent it.

The friends of abstention wish the people to abstain from growing to-bacco but they do not show them any thing else to do. There are not many thing else to do. There are not many thing the first of the family. I took Swin's Specific which from the first day forced out the poison, and continued its use until it. had taken several bottles, when I found myself well. I know that S. S. S. cured me. Winston, N. C., Nov. 26, '88 Was. S. M. IDOL.

Out of Order.

more hogs and when they do plant to bacco (as each one intends to do, plant very small crops and make them fine, that seems to me the best plan available to each individual farmer.

There is little danger of over-stocking the markets with meat if the whole Clarksville district goes to raising hogs to sell, or with good lard either. Hog meat is considered a necessity and tobacco a luxury, although the grower of tobacco doesn't see much in the way of inxury about it. There is quite a lot of poority oured bacon and inferior lard shipped into this country every year, that ought not to be the case. The people ought to raise it for export as well as a plenty for home use.

If any one thinks well of the hog business let him, by all means, get good hogs to start with and keep them growing rapidly all the time and just as soon as they will do to market sell them; they would eat less all told and have less time to take cholera. If he lives in a neighborhood where there is not much to get outside and he can turn them out with a reasonable certainty of seeing them again, well and good, if not be gen ming their moses and turn them.
